4 Minute Money Makers

Introduction

In a world where everyone is being pulled in 37 different directions per minute ... adult onset A.D.D. on the rise ... nearly impossible to focus on any *one* thing for more than 10 minutes at a time, what's a person with greater aspirations to do?

What we need is a way to take advantage of this channel-flipping, internet-surfing, Youtube-watching mentality. Instead of fighting our natural desire to 'flip' from one thing to another; why not HARNESS it? So, what if there were a way to do just that?? An actual way to make tons of cash by implementing little 'money makers' in 4 minute chunks? Now, we're not talkin' about "a dollar every 4 minutes" here.

Some of these '4 Minute Money Makers' will actually make you *thousands*.

Think seriously for a minute. What are the most important things that you want out of life? On second thought, I'll give you more than a minute -- heck I'll give you 4. If you're like most people, right near the top of your list were: 'free time' and 'more money' in some combination or another.

The sad part is that while 'most' people put those two things very near or even at the top of their list...they never get either and find themselves always looking for a way to get more of both of them.

Interestingly enough, that's why the idea of making money on the internet is so appealing to so many people. They're searching for that elusive dream they have in their mind... (I've had it, and probably you too...) Sitting on the beach somewhere sunny and warm, ocean lapping at the bottom of your lounge chair, all while you're sitting sipping the best, coldest Margarita you've ever had... while your profit busting website does ALL the work for you on total autopilot while you log in to the internet through your iPhone to make the PayPal deposits.

Such a beautiful picture. Too bad it's just a friggin' pipe-dream for most people... including internet marketers. Yup, I said it! It turns out that 'most' internet marketers have been sold a bill of goods and they're still chasing that very same dream of sand, surf, and automatic profits. In fact, if you did a survey, right now, of all the people who are making money online, we bet ya you'd find out that even those people are still heavily lacking in 'free time'.

So what's the problem? Is it impossible to *live the dream*? Or should you just pack it in and keep on going to your drudge-filled daily grind and give up all hope? I mean if 95% of the guys making money online don't have any free-time, is there really any hope for you? Should you just get a more comfortable office chair and accept your life as a cubicle drone???

Not so fast, Hombre! If you're one of those people that's been chasing the idea that you can start making 6 figures 'overnight' by putting up a website and driving millions of people to it 'overnight' as well, then hey, maybe it's time for another approach. After all,

'Overnight Successes' don't really happen overnight.

What if you could spend 4 or 5 minutes setting up a 'money maker' instead of 2, 3, even 6 months setting up that 'big idea' you've been sitting on for the last year. What if you set up a couple '4 minute money makers' and *whammo*, they made you \$50, \$100, or even \$500 per month without lifting another finger. Would you want to set up a couple more? (We think ya might.)

That's right, my friend - don't give up hope just yet. All one needs is a slight shift in mindset to go about making that income. Let's try this: Instead of thinking on that GIANT scale where one big project is going to net millions of dollars overnight... let's say we tackle a small project. A really small project in fact. But, one that nets you a little extra money, each and every month... one that takes mere minutes to set up... say... 4 minutes. Every body has an extra 4 minutes here and there, right?

Okay, now imagine this... once you set it up... it continues to generate that little extra cash for you over and over again. Not bad eh? Well, let's then take this idea a step further... Now, let's set up multiple little

projects just like the one you already did... remember, we're talking about things that are quick and easy to set up in just minutes... and each one puts more and more money in your pocket each month. It adds up fast.

Are you starting to get the idea here, now? How nice would it be if you had literally dozens of these money making projects paying you cash each and every month? Most people would agree - the 4 Minute Money Makers are not nearly as intimidating as trying to have one BIG website trying to make millions all by itself. Hopefully now it's all starting to make sense.

You know the old saying, "How do you eat an elephant??? One bite at a time." So how do you build an online business that gives you the lifestyle that you desire and the money you need each and every month on autopilot? 4 minutes at a time. That's right, baby -

Welcome to the 4 Minute Money *REVOLUTION!*

Just about everyone wants to make money online. You can't buy a coffee at Starbucks without seeing a handful of people there tryin' to live the dream. And it's true - There's a lot of money to be made. Billions. But what sets people who successfully make a large income online apart from those who don't isn't nearly as clear. I mean, if you just look at some of the behemoth companies who are making ridiculous money online you might be tempted to turn around and run. Especially when faced with the intricacies and complexities that are involved. But it need not be so daunting.

Think about it for a second. Even Bill Gates started out small. So did just about every other successful iconic company that you can name in 30 seconds. When the internet burst onto the scene it opened up a whole new playing field for people looking for an opportunity to make more money. Virtually (pun intended!) anyone could start a website, try and sell a product, and actually get customers with little to NO budget. But many internet businesses, like a lot of brick and mortar business, started and failed! In fact, they didn't do any better than their offline counterparts. (It might actually be worse considering there's no way to measure all of the 'internet businesses' that attempted to start.)

Why? Why do online businesses fail??? Well, many of the same reasons that offline businesses fail as it turns out. Lack of knowledge about a particular market, lack of budget, no traffic, dull ideas, and no technical skills just to name a few. And when you look at the 'successful' websites out there and contemplate the idea of 'copying' their success it just seems too far out of reach for the average person to accomplish.

So what's someone supposed to DO about it? Well, for one thing... they should forget about trying to build the "Next Big Thing". (For now, anyway.) Focus instead on developing a nice passive income stream. Build up dozens of 'money makers' until you can quit your job, put money into investments perhaps, and then - if you still want to - you can think about beating out Microsoft, Google, and Myspace all at the same time. That's right -- don't THINK BIG right

now ... Think Small. No, scratch that ...

THINK LEAN

Trim the fat, baby. Eliminate all those big requirements that clutter your path to success. Eliminate the need for too much time, too many technical skills... too much money...just throw them aside. It's time to go from MACRO to micro. Ok, ok, some of you might be thinking right now: "how in the hell am I going to create a huge, profitable online business that would even come close to competing with the big players without any of those things in place?"

Simple. You're not. You create tons of nice little income streams that cater directly and specifically to special niches that bring in profits to you each and every month and you beat the BIG guys at their own game. (We call these special niches "Honey Pots", but more on that later in the course.) We're not saying that you're gonna make billions with 4 Minute Money. But, it truly is possible to make a high six figure passive income with just a handful of sites that you set up starting out as '4 Minute Money Makers'.

Look, you can't out 'Amazon' Amazon.com. Ain't gonna happen. Not today. Not without a few hundred million dollars in venture capital. You don't have to re-invent the wheel or create the next big thing. Let other people worry about all that crap and waste their own time and millions. While they're distracted by the next shiny thing on the horizon, you'll be pocketing your monthly nut and giggling

all the way to the beach.

Don't try to build a Caviar web business on a Taco Bell budget. If you do...you're probably NOT going to be happy with the results, not to mention the waste of your time and energy. Plus if you pour all your resources into the "big one" what happens if the market changes? Or the next "Next Big Thing" comes along and knocks you right out of contention? And if you've over-invested in time and money and sweat and tears that one letdown alone might be enough for a person of even above average will & desire to throw in the towel.

So rather than concentrate all your time and energy on making it BIG....think lean, very very LEAN. That's what 4 Minute Money Makers is all about. Ideas and strategies that are going to let you spend your taco budget and the time it takes to go through the drive through to bang out great ideas and websites.

I mean, if you could spend say one to two hours creating just ten little "Money Makers", and then nine of those ten completely and utterly fail... wouldn't you still be happy with the one that went on to make you \$100.00? Hmmm, maybe \$50 to \$100 an hour doesn't excite you. (Me neither) So, how about if that one continued to pull in that \$100.00 month after month after month?

Now, how about if you repeated the process a couple of times and ended up with say ten sites all paying out a hundred bucks or so each and every month... that quickly adds up to a whole lotta tacos! Even if you only have the

time to make a "4 Minute Money Maker" that hits twice a week, once you start doing the math you can see the kinds of results you can have. And that's saying that 9 out of 10 of your ideas FAIL... imagine when you understand the process better and 5 out of 10 reach some level of success. All this is predicated on putting in just an hour or two a week - and we know many people have 5,10, even 20 hours.

But even if you have literally 'no time' on your hands to do practically anything at all, you have time to implement 4 Minute Money Makers. Each month you bang out a couple of projects, giving you an ever growing income with you barely doing anything, and whenever you have a few minutes free... you can whip up some new 4 Minute Money Makers to add to your bottom line. The next time you get 'sick and tired' and want to google for the 'next big thing', put a money maker in place instead!

Not only that, if you follow the guides we've put together in 4 Minute Money Makers we guarantee you'll eventually have more than a 1 out of 10 chance at success. Even a project that consistently pulls in as little as 10 bucks every now and then is completely worth it! Especially if it's on virtual auto-pilot.

Introducing 4 Minute Money Makers

The core philosophy of "4 Minute Money Makers" is actually quite simple. We're not going to sit around and spoon feed you a bunch of garbage about how you can bring in riches overnight. In fact, that's one of the very myths 4 Minute Money seeks to dispel. A large part of why many

fail in their online businesses is because they've been convinced that they can just set up a website and rake in the cash overnight. They put in 3 or 4 weeks towards their 'overnight' success, and when it fails, they throw in the towel and call it quits. In this course, we're going to show you how to avoid all that.

One big problem is that most people don't think long term at all. They go out and spend countless hours building a huge project and think it's going to replace their income instantly... and when they finally launch it, they bring in a measly \$98 bucks a month and end up completely disappointed! Half the time, they give up altogether.

But let's back track for a second here... If this was a 4MMM, the project would've only taken a few minutes to put together... and started pulling in that very same \$98 bucks a month (\$1176.00 per year!) All of the sudden, that \$98 bucks looks pretty good. Especially once you learn how to do it over and over again.

Looking at this a different way, let's say your 4 Minute Money Maker only brings in 1 new visitor a day ... or 30 new visitors a month to your site. Over the long term that's 360 new prospects a year from something that only took you a couple of minutes to set up. Even with a really low conversion like 3% you'd land some sales in the long run. (Don't worry, we'll teach you to land higher conversions and nice high-paying commissions at the same time.)

The good news is that you won't be asked to sacrifice

quality for quantity. You just have to learn the techniques in 4 Minute Money Makers so that you know how to streamline your time and effort to create lean, mean high quality profit machines.

Plus, you're going to get some good tips on how to improve your existing online business; you'll get the skinny on how to start some complete businesses from scratch in literally no time with no money; and even if you're a complete newcomer, as long as you know the skills it takes to send an e-mail message, you can do most, if not all, of the 4 Minute Money Maker techniques. (Look, if you can't write an e-mail... seriously, take an EXTRA 4 minutes and get someone to show you how.)

Yeah I know. It sounds too simple, right? Listen, don't be fooled by simplicity. Gravity is a pretty simple concept but it took till 1687 for Sir Isaac Newton to be bonked on the head with it and write it down. Seriously, almost anyone can master the techniques in 4 Minute Money Makers, even some of the most experienced marketers on the internet are going to be blown away by some of the ideas in this program. (Which is why we've put a limit on the number of people in the Elite Membership Club.) You can literally base an entire business around a single part of this system, so don't make the mistake of equating simplicity to something that won't work. There's some very simple, very powerful stuff up ahead.

While you can certainly treat these 5 guides as individual business endeavors of their own; the real power comes when you learn the techniques well enough that you

can start to combine them for better results. The old notion of synergy comes to mind here. We want you to focus on 1 type of 4 Minute Money Maker, master it, and add in another. It's not a matter of $\$100 + \$100 = \$200$... when you start combining the money makers, *multipliers begin to come into play*.

Some of the guides will resonate with you immediately and match your style. Once you start to experiment with all of them, the power of the entire system will become clear. I promise you that you're going to walk away with several implementable ideas from each and every guide. Welcome again to the 4 Minute Money Maker's Revolution. Now, let's start with The Basics...

The "4 Minute Money" Basics

There are 4 main ways to make money online and thousands of variations on each of those. Here they are: 1) Create your own product or service to sell directly to your customers; 2) Sell someone else's product; 3) Create a site that gets lots of visitors and sell Advertising space; or 4) Any combination thereof - with an exit strategy of Selling your business in the end. 4 Minute Money Makers will primarily be focusing on #1 & #2 above and steering completely clear of the others since #3 & #4 fall into the 'Next Big Thing' category that we're staying away from for now.

Let's go ahead and begin with the quickest and easiest way to make money online - #2 - Selling someone else's product. Keep reading, this form of affiliate marketing is

nothing you've ever heard before.

Getting Paid to Sell Someone Else's Product

Okay, so we're going to focus our energy on getting paid by other people to send visitors to their sites and buy their products. You can get paid for this in a couple of different ways. One is Pay Per Click, the other is Pay Per Action.

Google Adwords (adwords.google.com) is by far the most popular Pay Per Click (or PPC) network out there, but it can take a TON of clicks to add up to any substantial revenue it's promoters. We're not saying that you should ignore it, but let's look at the other alternative for the moment.

What we're going to talk about here is one type of 'Pay Per Action' revenue. Which is, more specifically, when a merchant pays you every time a certain action occurs. This action could be as simple as having a prospect fill in their zip code, it could be a long form of information, or it could be when a *SALE is made*. The merchant pays you to refer paying clients to them and you make money when they do. Of course this is also known by a more common term: Affiliate Marketing. This is the type of Pay Per Action we're going to focus on in 4MM.

Now, I know that a vast majority of readers probably know a good bit about how Affiliate Marketing works. But, bear with us (or skip ahead) as I give a little more detail for those who might just be starting out.

Here's how it works: You can either sign up to an affiliate network (kind of a clearing house for Pay Per Action opportunities) or you can do a little more searching and find private affiliate programs that's offered directly by the merchant itself. Both have advantages and disadvantages. But, if you're just starting out I'd suggest looking into a good affiliate network. It makes it easier to find a variety of different merchants and products to choose from so you can find one or more that you truly want to promote.

You can do an actual search for "affiliate network" or "affiliate programs" if you like, but we'll save you some time. Here are the four we'll consider for this guide:

- CommissionJunction.com
- ShareASale.com
- Linkshare.com
- Clickbank.com
- PayDotCom.com

Clickbank & PayDotCom focus primarily on digital products such as software, e-books, and other forms of info-products. As an affiliate, anyone can sign up for literally any product they see on the site.

The other 3 sites I just mentioned favor physical products more than digital ones and in many cases you'll have to sign up for each program individually. I suggest doing a little research to find out which ones suit you better. CommissionJunction (or CJ) is by far the biggest

network out there - so, don't expect a personal touch until you're bangin' out \$50,000 or more per month.

It's important to note that when signing up to a particular merchant's affiliate program, you'll find a couple different schools of thought. Some merchants believe in a 'the more the merrier' approach and literally approve just about anyone automatically. While other merchants prefer to manually look over your site to make sure it reflects the flavor and brand that their product represents. Either way you'll have to go through some kind of approval process when you sign up to become an affiliate.

Sometimes you might get declined, so be aware that it can happen. If you are declined, you can always e-mail the affiliate manager of a given product and open a conversation to see what you might do to get in. You can usually find their contact information on the affiliate network itself. In every case when you're selecting a merchant to work with, be sure to read up as much as you can on that particular merchant and product.

If this is completely unfamiliar territory to you, you should take a few minutes to read over the affiliate network's frequently asked questions, tutorials, or anything else they might have to help you along. However, the basic idea is that you'll search relevant categories for merchants you might want to promote; sign up for them (usually just by clicking a button that might say something like "apply"); check out the links that they offer to affiliates (usually by clicking a button like "get links")

or "create links"); and then copying and pasting the code onto your website.

Some networks make this all a bit easier and provide you with a direct affiliate link immediately when you sign up. For example, if you use Clickbank you simply go to the Clickbank.com website and click on 'Promote Products' and sign up as an affiliate. After signing up you can search for literally 1000's of products they have and then click; 'create hoplink'; enter your affiliate ID that they give to you and PRESTO you instantly have your affiliate link ready to promote. (And PayDotCom works very much the same way as Clickbank.)

Affiliate marketing is actually quite simple and straightforward. No need to create a product or a big fancy website. Just get people to click your affiliate link and when they buy... you get paid. Usually 50% or more on a digital product, though less for a physical product.

Some people might be thinking right now, "yeah, I tried all that affiliate stuff before and I never made any money at it." But I assure you that the tips we're showing you here aren't some rehashed tired old material all gussied up for a new market. We lost count of how many courses out there taught people to just get Google Adwords to send to your link and viola! You're a millionaire. This method, for instance, is becoming less and less effective.

Affiliate marketing is a part of the core 4 Minute Money Makers strategy... they're quick, easy to set up, very cheap and PROFITABLE. But we're not going to teach you

the same old stuff.

The trick here is in perspective. Like we've been telling you all along... don't expect overnight riches... think "set it and forget it". Spend as little time and effort as possible making residual income generators that will continue to trickle in, over the long haul... without a lot of effort by you.

Ok, what if someone hates affiliate marketing? (who hates affiliate marketing, c'mon???) But if someone actually does, have no fear, there plenty of other techniques contained in 4 Minute Money Makers that have absolutely nothing to do with affiliates. One thing you WILL find though, all of these 4 Minute Money Makers have 2 things in common; 1) they take a minimal amount of time and effort and 2) they're designed with long term potential in mind.

You're about to learn methods that you can implement yourself that take almost no time at all; as well as things that we suggest you outsource that take a bit longer. Some of the techniques we teach are going to be slightly more advanced. So, as you learn you'll get that 'AH HA' moment when things come together. But don't worry, there are enough strategies contained in this system to get anyone started no matter your time, budgetary, or even technical restraints.

Before we get into detailed instruction, we felt it a good idea to give you an overview of each of the 4 Minute Money Guides.

Summary of the 4 Minute Money Guides

Each of the five guides included in the 4 Minute Money Makers system contain some broad ideas that then divest into other precise areas that you can turn into a small (or even large!) operation all by themselves so be sure to read each guide in its entirety even if at first it doesn't jump out at you.

Here's what you're getting:

4MM Guide #1 - *"Give People Money & Get Paid to Do It"*

4MM Guide #2 - *"Total Reciprocity - Get Paid to Ask for Nothing"*

4MM Guide #3 - *"The Automaton System: Robots Making You Money"*

4MM Guide #4 - *"The Insider's Guide to Instantly Getting Your Own Free Labor, Products, and Money"*

4MM Guide #5 - *"4 Minute Traffic Tactics"*

4MM Reading Instructions

It's not necessary to read these in any particular order. Again, all of the guides play off of each other - yet they all contain 100% Money-Making-Models in their own right.

Below are summaries of each one so you can choose which one you want to start with. Some are easier than others but all of them are designed to be mastered by just about anyone. But remember what we mentioned earlier... the real power comes when you read them all and begin to understand how to use all of these tactics together. But it's totally probable that you'll read one guide, implement a few 4 Minute Money Makers, and be making money before you complete the second.

Okay, without further delay, here's the overviews:

4MM Guide #1: Give People Money & Get Paid to Do It

Yes, the title of these guides are designed to put your head a little bit on tilt. We were originally going to call this "████████████████████" - but if we did, you'd come in with all sorts of pre-conceived notions. So, grab your ██████████ and...wait. Just kidding. It's not THAT kind of ██████████. We're talking about ██████████ ██████████ here.

Don't know what we're talkin' about here? Okay -- Ever

notice those [REDACTED] [REDACTED] [REDACTED] on some [REDACTED]-[REDACTED] websites that say: "[REDACTED] [REDACTED] [REDACTED]?" Maybe you're one of the many who've actually searched out a [REDACTED] [REDACTED] or two when they're about to purchase a particular product online.

Just pop into google and search for the website name, the product you're about to buy, along with "[REDACTED] [REDACTED]" ... or "[REDACTED] [REDACTED] [REDACTED]" ... or "[REDACTED]". And *BOOM* an [REDACTED] [REDACTED] appears and the searcher gets an [REDACTED] [REDACTED]. I mean, who wouldn't want to [REDACTED] [REDACTED] on that [REDACTED] [REDACTED] or even get a [REDACTED] [REDACTED] on that new [REDACTED] just by doing a quick search??

What most people don't realize is that some enterprising internet marketer (like 4MM Creator, Brian Koz...) is making loads of cash each time someone uses a [REDACTED] like that... without that person even being convinced to buy anything. How easy is that?

You read that correctly. Every time an [REDACTED] [REDACTED] is used, some smart affiliate is getting a chunk of the profits. [REDACTED] [REDACTED] is one of the easiest ways to make some cash because you're not trying to 'convince' someone to buy something. You're just giving them a [REDACTED] [REDACTED] something that they ALREADY decided to buy! I mean, it's like they're standing in line at the checkout and you walk up and say...."[REDACTED], [REDACTED] [REDACTED] [REDACTED]?", no strings attached, and when they use [REDACTED] [REDACTED], YOU get paid.

Granted, this is a twist on affiliate marketing, you're getting them to click on your affiliate link in return for [REDACTED] [REDACTED] [REDACTED] [REDACTED]... but it's

really a no-brainer and it happens all the time. Not only that, it's one of the few marketing techniques that has insanely high click through rates as compared to normal internet marketing. On a normal sales page you have to dedicate a lot of time trying to spur the person reading into action. It's not uncommon to have as small as a 1% conversion rate. But with [REDACTED] [REDACTED], it's a pretty easy sale giving someone a [REDACTED] [REDACTED]... So, a 25% to 50% conversion rate is not out of the question if you target your market correctly. (Which you'll learn all about in Guide #1).

Not only that, with this technique, you're really in the 'good Karma zone' you can feel perfectly fine about making some cash off your own grandma. I mean, if granny wants to [REDACTED] [REDACTED] [REDACTED] on that new [REDACTED] she's been eyeing and you happen to have a coupon for it, I bet she'd plant a big ol' wet one right on ya while she was giving you your cut of the loot.

Plus, you can pretty much give out [REDACTED] like there's no tomorrow and not live in fear that you'll be accused of something with a negative connotation, like spamming. You're truly helping others! (It's okay to be in it for the money, too - don't worry.)

Additionally, almost nobody out there knows that there's a way to actually make money by using [REDACTED] [REDACTED]. Even though at some point or another, almost everyone has used one at some point. Pretty powerful, huh?

to Do It" shows you how to easily set up a website or a free blog, how to target specific keywords (with either organic or PPC advertising) how to source the actual [REDACTED], where to find your customers and a whole lot more.

The beauty of this trick is that once you get it set up, you can almost just walk away. Autopilot baby. Maintenance can be done in as little as... (wait for it...) 4 minutes a month, and sometimes less than that.

If you know anything at all about affiliate marketing, this guide alone is going to really shock you. If you don't, then read the whole guide and start knocking out these [REDACTED] sites right away!

4MM Guide #2: "Total Reciprocity - Get Paid to Ask for Nothing"

You probably hear it all the time (especially if you work in the online world): "Content is King!" And for the most part, we agree. But, there's another aspect that gets overlooked all the time. Providing a [REDACTED] [REDACTED] to others. If content is king, then [REDACTED] IS QUEEN (and we all know who's really in charge, right?) It can be as simple as [REDACTED] out a potential customer with a [REDACTED] [REDACTED]... and this concept can also run far deeper.

Anything that you can actively do to [REDACTED] visitors [REDACTED] [REDACTED] [REDACTED] with your affiliate link, via your website, e-mail or even the phone, is going to pay you

dividends. They're going to thank you for your [REDACTED] while bringing in the dough for you from their purchases. And yes, there's a way to do this in a relatively automated fashion.

We call it "[REDACTED] [REDACTED]" and it can be as simple and almost invisible as offering a short '[REDACTED] [REDACTED]' [REDACTED] about a particular product. [REDACTED] [REDACTED] can also encompass things such as [REDACTED] searches that automatically [REDACTED] products, [REDACTED] numbers that people can [REDACTED] to get more [REDACTED], viral [REDACTED] - [REDACTED] or even just a simple contact e-mail that allows you to offer your [REDACTED] [REDACTED] through. Whether you're a newcomer or seasoned veteran, you're going to take something away from this guide.

The 4 Minute Money guide on "*Total Reciprocity - Get Paid to Ask for Nothing*" is going to open your eyes to a plethora of niches that you can dominate and just like the previous guide, even make you feel good in the process as you help people out. (It can be our little secret that you're also making a bunch of cash in the process.)

4MM Guide #3: "*The Automaton System: Robots Making You Money*"

This is potentially the most powerful 4 Minute Money Maker... and the one that has the most chance to be abused. It's not about setting up a 90 day [REDACTED] - [REDACTED] [REDACTED] or spamming people in anyway.

You'll learn how to sneak past trigger happy spam

accusers who are just hunting for their next prey to pounce on. Get your ads listed in free classified sites without the worry of being shut down due to any sort of wrongdoing.

To put it simply: You'll be setting up little [REDACTED] - [REDACTED] robots to do the selling for you. Inside the guide, we call it "[REDACTED] - [REDACTED] Marketing", but don't get confused by the name. It's simple to do, easy to implement, and makes you money.

Not to mention, learn how to use this simple to implement trick on your own website to get red-hot lists of prospects [REDACTED] you directly for more [REDACTED] all while your [REDACTED] - [REDACTED] robot is pointing them right to your affiliate link and bringing in the cash.

4MM Guide #4: "The Insider's Guide to Instantly Getting Your Own Free Labor, Products, and Money"

Getting paid for doing nothing. How good does that sound? But that's exactly what happens when you [REDACTED]. You give others work to do while retaining the ability to make a profit from the work itself. You can't get much better than that.

Just like the big companies who routinely [REDACTED] their work to others - everything from website design, to writing, to programming and customer support - you can do it too in a way that won't break the bank.

Fact is, you don't need thousands of dollars a day to be able to ██████████ your workload. Not only that, sometimes ██████████ is a necessary part of growing your business and taking it to the next level.

"The Insider's Guide to Instantly Getting Your Own Free Labor, Products, and Money" is going to show you ██████████ Secrets with several different ways in which you won't even have to pay a single penny upfront and still get quality products to sell. And if your product totally flops, you won't owe a single dime. Now, that's some serious insurance!

In this guide there are actual secrets... some of them the 'big guys' don't want you to know. While others, the 'big guys' don't even know themselves!

The guide contains a wide variety of ██████████ techniques including how to get almost any project you can imagine set up for no cost. One of the most powerful is how you can take your newfound ██████████ ██████████ to the ██████████ ██████████ and make money there as well. (Notice, I said '██████████ ██████████' - not '██████████'. We're talking about using these skills to make money in the ██████████ world as well.)

Having the extra money to actually hire some workers is never a bad thing, but in this guide you're going to learn about not only cheap alternatives, but some **free** ones as well. There are even ways to set up an entire ██████████ business in virtually no time at all and then setting it to run almost entirely by itself. Once you have a good

██████████ setup, you can truly make thousands per month on complete autopilot. (We have a testimonial on our sales page from someone who just landed a six figure deal with this technique.)

Even if you've never considered ██████████ before you're wasting valuable time and money if you don't read this guide and implement its strategies.

4MM Guide #5: "4 Minute Traffic Tactics"

Face it. Every website needs traffic. This is a fact of life in the 21st century. The "4 Minute Traffic Tactics" guide contains several tricks, not only to get traffic to your sites... but to get extremely targeted traffic. In fact, sometimes we jump over the concept of 'getting traffic', right into 'getting customers' instead.

These tactics are so powerful you may be tempted to use some of these techniques as a stand-alone project. (And you can if you want to.) Most of the tactics can be incorporated into your existing online business if you've got one; and all them can be used with all of the other 4 Minute Money Makers you decide to use from the rest of the system.

It's true that there are a lot of traffic guides out there. Most of them talk a good game about how to get loads of traffic from Adwords; what keywords work for SEO and how to get them ranked; how to get bunches of free web 2.0 traffic and all kind of other stuff.

Ya know what? Almost all of those methods are difficult, take a whole lot of time, or really aren't all that effective. Especially for the average person just starting out. As with everything else in this system -- 4 Minute Money only focuses on methods of traffic generation that are incredibly quick, and pay off BIG time in not only the short term... but the long term as well.

You're going to learn how to get ranked #1 for keywords that will bring in money that take little to no effort on your part. (I know, I know....too good to be true...but when you read the guide it's going to become clear that it's really not THAT hard.) Not only that, you're going to get some SEO and blogging tricks that will literally skyrocket your rankings. PLUS, we'll show you how to track down customers who are actively searching for exactly what you're offering and practically steal them from other sites that are already ranked for the very keywords you're trying to get ranked for!

Unconventional? Yer darn tootin'!. But, you'd be a complete fool if you didn't read this guide cover to cover. In fact, if you're only gonna read one guide - this is the one. Its usefulness extends to any online business you have... or will ever have for that matter. Best of all, each of these tactics is insanely easy and lucrative, just like the 4 Minute Money creed stipulates.

Your 4 Minute Money Makers Membership

We're just getting started here. Whether you signed up for the free "LITE membership" or the well-priced "ELITE

membership", you'll gain access to tons of powerful automated scripts to make your new 4 Minute Money lifestyle even easier!

<http://www.4minutemoney.com/> 

If you don't receive your username & password; simply follow the link above and fill in a support ticket and you'll be sent your login info within 2 business days.

Final Thoughts

Making money online isn't rocket science. Nor does it need to take the kind of time and money you might waste on useless information.

So many people have been spending too much time or

money on a single project that backfires in the end... BIG time! With 4 Minute Money you're virtually eliminating the roadblocks. If one of your projects fails, just move on, forget it. There's tons more success out there without breaking the bank. In the time it would take to set up one HUGE site with all the bells and whistles (not to mention that Caviar), 4 Minute Money will have you with literally dozens of smaller projects actually making you money.

Sure plenty of people will continue to burn up to 80 hours a week and expend tons of effort on a site that would make them a small fortune. But, why would you want to when, by using 4 Minute Money Makers, you can enjoy not only the money, but the freedom that comes along with it, too. You can choose when to work, where to work and continue setting up money making products in less time than it takes most people to make it through the Taco Bell drive-thru!

Best of luck with your 4 Minute Money Makers! Jump in and get started now! Simply follow the link below and you'll be on your way:
